

Guidelines for SF & Mobile DOC

About:

- **Size** -> SF : Depends on screen capture. See examples | mobile : 1920 x 1080px (FHD)
- **Background colour** -> #E5F1FE
- **Font family** -> Inter
- **Min padding all around** -> 32px
- **Border thickness for screen captures** -> SF : 4px
- **Border radius for screen captures** -> SF : 10px

General best practices:

- For single screenshot on one page -> Center screenshot horizontally & vertically
- For multiple screenshot on one page -> Use guides(File>Settings>Add guides) for consistent spacing
- For spacing -> Use a multiple of 8 as much as possible e.g 8px, 16px, 32px, ...
- Use colours from colour palette(SharinPix colours) where needed
- Download image as PNG keeping original quality

Dedicated examples for SF & Mobile are provided in the next pages...

Best practices for SF screen captures:

- Use DOC org for screen captures
- Screen captures should be taken on laptop itself and not on monitors to ensure consistent resolution
- Use a good context e.g album with inspection images

Size:

Any of the following sizes can be used where **appropriate**. The width remains the same and only the height varies. Examples: For a screenshot of a full SF page use **1920 x 1080px**. For a single button component, use **1920 x 360px**.

- 1920 × 1080
- 1920 x 600
- 1920 × 480
- 1920 × 360

Best practices for Mobile screen captures:

- Use latest iPhone available whenever possible except if screenshot is Android specific
- Use pixel for Android screenshots and ipad for tablet screenshots
- Keep time consistent
- Take screenshots from SF mobile app/ Field service with a good context e.g field inspection context
- If screenshots cannot be taken from SF, make sure on iOS there is no back to Safari or Chrome button

Gitbook Training

Agenda

- How to create a change request - Title
 - How to Share link for review
 - Check someones change request
 - Fill in a sheet of all the doc you are changing (for now)
-
- New elements that is avaiable on Gitbook
 - Code blocks: identation & language
 - Links
 - Best Practices

How to create a change request

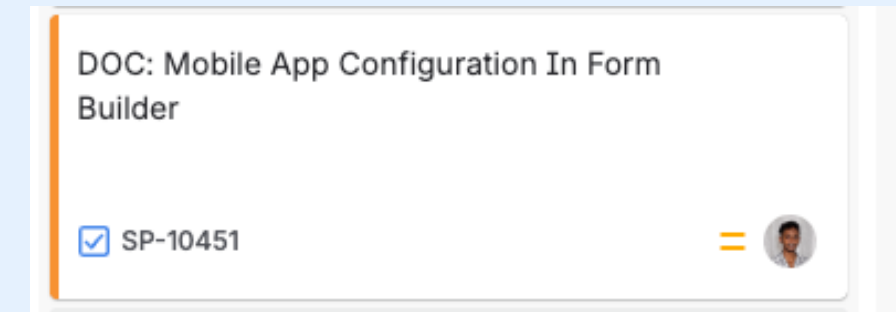

<https://app.gitbook.com/home>

Make sure to select correct doc spaces

Add proper title along with ticket number
for e.g:

Mobile App configuration - SP-10302

- How to edit existing DOC
- Create new doc example
- Update overview(table of content)

Fill in a sheet of all the doc you are changing
(for now)
